## Aspire Technologies

### Now Small Businesses can Aspire Higher

#### Offering Sleek, Affordable Technology

You have made your dream a reality, but competing with the “big chains and over commercialism” is a hurdle that most owners face everyday. It is very common for many entrepreneurs to be creatively running their business day to day without a successful marketing strategy. A profitable website, email marketing campaign, slick print ads, and an online shopping cart can all work together to build profits . How do you do it? Can you afford it? Yes you can – we make it affordable without the technology overload. Find out and contact us for a free consultation.

#### WHY WE ARE DIFFERENT THAN ANOTHER TECHNOLOGY COMPANY

We like technology and embrace its conveniences. But what we found from being in technology for 15 years is there are too many “computer geeks” that can’t break it down so you understand it. Our experience is presenting technology to high level executives so technology plans can move forward – the big companies, the top execs in the country have raved about our technology training and consulting skills. But working for a big company doesn’t have all the rewards like seeing a small business flourish with the help of our technology and marketing. Spring of 2006 we created our own company Aspire Technologies – in one year with word of mouth we grew to 50 loyal customers.

#### THE AFFORDABLE RATES – 40% LOWER THAN OTHER COMPANIES

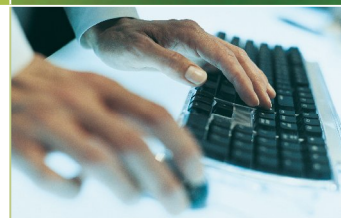

Our rates are purposely priced at least 40% lower than other companies of our caliber. Why? How much does an ad cost? Our first year in business was based on all referrals. Our work is that high in quality, our client service skills unmatched. People talk. So we advertise very little. Flexpay plans are also available.

#### OUR EXPERIENCE – Corporations, Sports Centers, NHL Hockey Teams, Small Businesses

Utah Olympic Oval for Salt Lake Olympics; Ray & Joan Kroc Center/Salvation Army in San Diego; Merck; Johnson & Johnson; Philadelphia Flyers & Eagles; Motorola; Macys; Hyatt & Sheraton Hotels.
